

# How to Make a Google Slides Collage

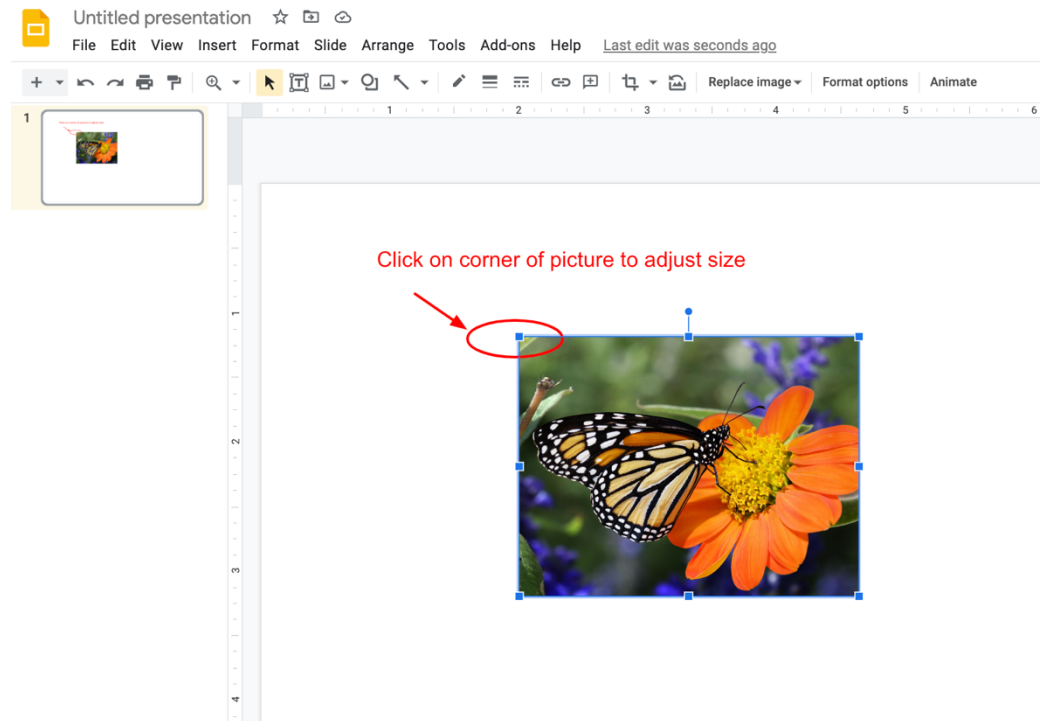

## Steps

1. Take pictures of nature in your neighborhood. These can be a birds, animals, insects or plants.
2. Upload pictures onto your computer (or have your parents do this for you).
3. Open google slides.
4. Hit "Insert – Image – Upload from Computer."

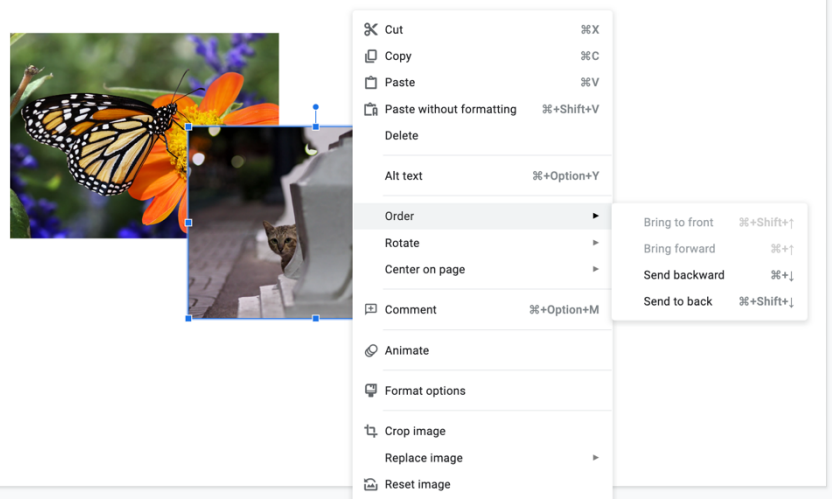

# How to Make a Google Slides Collage

5. Click on picture from your computer file and add in! Then adjust size and move anywhere on page!

6. Add a second picture and adjust the placement by sliding it around the page. You can also make the pictures go behind or in front of other pictures by **right clicking** and hitting “Order” – then “Bring to Front” or “Send to Back.”

Then finish your creation and send to [Envirofuninfo@gmail.com](mailto:Envirofuninfo@gmail.com)!
